

NECA ALASKA CHAPTER

NEWS FROM THE CHAPTER

Negotiations Update

As mentioned previously, the current pandemic situation has not prevented negotiations from proceeding on the Outside Electrical Construction Agreement. The IBEW and AK NECA have reached a tentative agreement on the terms and conditions of a successor agreement and the ratification process is underway. IBEW will count ballots this Thursday evening and the Chapter will notify Employers on Friday regarding the outcome. Stay tuned...

Also, the Chapter recently sent employers engaged in the outside construction industry a synopsis of proposed changes to the Outside Agreement. If you are in need of a copy of the synopsis of proposed changes to the Outside Construction Agreement, please let the Chapter know and we will get a copy to you.

Upcoming Meetings & Events

The next Board of Directors and Membership meeting is scheduled for September 9, 2020 via Zoom at 4:30 pm and 5:00 pm respectively. See you there!

effectiveness of this program, further relief talks have hit a standstill in Congress and the program-which has offered 5.2 million loans at an average of \$101,000-will now be closed with over \$130 million remaining in its appropriated funding.

2. NECA Joins Coalition to Provide Comments to DOD on ESG Investing

Following a brief 30-day comment period, the Department of Labor received more than 1,500 comments providing feedback to a proposed rule seeking to clarify the responsibilities of fiduciaries when practicing environmental, social, and corporate governance investing, commonly known as ESG Investing. Many groups, including the Construction Employers of America-which NECA is a part of-voice concerns over the proposed rule which could potentially limit the economic benefit resulting from ESG investments.

3. NECA and Other Groups Voice Opposition to NDAA Beneficial Ownership Requirements

Last week, NECA joined a large coalition of groups and sent a letter to the Leadership of the House and Senate Armed Service Committee to oppose any beneficial ownership requirements in the forthcoming National Defense Authorization Act (NDAA).

NECA's Look Ahead

New Mailing Address for NECAPAC

On August 15, 2020, Washington, D.C. became the new site for NECA's headquarters. Moving forward, NECAPAC encourages members to utilize secure online donations to ensure safe delivery of contributions. If you have never made an online contribution and would like to utilize this feature, please contact Hadlea Bothe at Hadlea.Bothe@necanet.org or 240-800-5004 for assistance in creating an online NECAPAC profile.

If you would like to contribute to NECAPAC for 2020, you can do so by [clicking here](#), asking the Chapter for a NECAPAC personal or corporate contribution form, or pick one up at the Chapter. They are also available on the [Chapter's website](#).

If you wish to mail in your NECAPAC contributions, please send to NECA's Capitol Hill office at:

NECAPAC
412 First St. SE Suite 110

Washington, D.C. 20003

[OSHA Quick Takes: The Question of Wearing a Mask](#)

Does wearing a medical/surgical mask or cloth face covering cause unsafe oxygen levels or harmful carbon dioxide levels for the wearer?

No. Medical masks, including surgical masks, are routinely worn by healthcare workers throughout the day as part of their personal protective equipment (PPE) ensembles and do not compromise their oxygen levels or cause carbon dioxide buildup. They are designed to be breathed through and can protect against respiratory droplets, which are typically much larger than tiny carbon dioxide particles. Consequently, most carbon dioxide particles will either go through the mask or escape along the mask's loose-fitting perimeter. Some carbon dioxide might collect between the mask and the wearer's face, but not at unsafe levels.
