IBEW 1547 Ketchikan	(907) 225-1547

QUALITY BEGINS WITH GOOD DESIGN...

It is accomplished with NECA Contractors

NECA Contractors have access to a skilled labor pool that has been trained through joint apprenticeship programs. In today's highly technical construction industry, properly trained craft people are essential.

NECA Contractors are stable. They are able to provide customers with a list of successfully completed projects. Having a good reputation in the community and industry is a given, not a goal.

NECA Contractors use only the best-trained electrical and communications technicians available. State-of-the-art management resources and industry best practices are in place and utilized daily.

NECA Contractors perform quality work safely. Work that complies with NEC® requirements and all other applicable safety codes and industry standards is the norm. Your project will be completed on time, under budget, and without disruption.

Serving Alaska Since Before Statehood
